**PHASE 3, MEETING 4: JUNE 2
MEETING SUMMARY**

What happened at the June 2 Tribune meeting?

On June 2, 2015, residents received Project updates and participated in two activities with a theme of “Learn, Teach, Share”.

Project updates included:

Solarus invests in Tribune: Special recognition was given to Solarus for investing \$5,000 in the Tribune and securing an additional \$5,000 matching gift from CoBank’s “Sharing Success” matching grant program. If you did not have an opportunity to see this recent news, please visit our website to see Solarus’ entire news release.

Tribune Public Tours: Hosted by Helen Jungwirth, Tribune tours will be given throughout the summer. These will be the first in a series of public tours and learning opportunities being offered throughout the summer and into the fall. If you are part of an organization that could benefit from hearing about the Tribune Building Project’s origins and opportunities for current engagement, please call Incourage at 715-423-3863.

FEED Kitchens Site Visit: A number of engaged residents and Incourage staff participated in a site visit and tour of FEED Kitchens in Madison on May 26. Review tour highlights [here](#).

Youth Engagement: Recognizing that many youth have not been actively engaged in the Tribune public meetings, Incourage staff and engaged resident Jamie Jestadt reached out to area schools to engage youth in an activity for the Game Room space in the Tribune. The following local schools participated in the Game Room Activity: Nekoosa CWSA, Port Edwards, Washington Elementary, Woodside Elementary, and St. Vincent. Students were able to share their vision of the ideal experience within the Game Room space. They were able to select their favorite furniture, walls and artwork, as well as games and activities. All of the ideas and selections were shared with our partners at Concordia to help inform the design of the space.

Activity 1: Learn, Teach, Share

Residents worked together to identify what they would like to learn more about and what they could teach others. Additionally, residents shared potential networks/groups that could benefit from learning more about the Tribune’s process and progress through a Tribune 101 presentation.
