Thank you, residents, for investing your time, talent, and financial support in the Tribune! We have seen your passion, excitement, and understanding of the Tribune as "more than a building" continue to grow.

Incourage has submitted a proposal to include the Tribune in the 2017 State Building Commission budget. If successful, the Tribune could receive over \$7 million in grant funding for construction. To maximize this and other funding opportunities, **we need your continued commitment, leadership, and investment now more than ever.**

Please join us Tuesday, December 13 to share ideas and determine next steps for how each of us can play a critical role in continuing to move the Tribune forward in 2017.
